

HEROES

And what that means

Maybe heroes makes us think of.....

We all have different heroes we look up to.

Here are some – if you don't know who they are there are links so you can learn something about them.

You may have different heroes.

We would be very keen to hear about them – let us know at studentbulletin@wootton.beds.sch.uk
You could share a powerpoint slide about whoever your hero is.

or become a
you might
for the police who ensure we are all safe.

- Maybe you will remember t
both in school and from ho

Are you still doing your bit?

We know it is boring, but you really must stay indoors and away from your friends.

If you don't you could be spreading the virus without knowing it.

Coronavirus (COVID-19): what you need to do

Stay at home

- Only go outside for food, health reasons or work (where this absolutely cannot be done from home)
- Stay 2 metres (6ft) away from other people
- Wash your hands as soon as you get home

Anyone can spread the virus.

So what is coronavirus?

Note links to science GCSE

- Coronavirus is...a **virus**! Therefore it infects your cells. That is why **antibiotics** can't kill it.
- Like all viruses, it take over your cells and so YOUR cells make more of the virus.
- It **mutates** fairly rapidly. Therefore it keeps changing and so it is difficult to find a way of fighting it.
- It has caused a **pandemic**. That is a disease that causes lots of people to be ill, all over the world.
- Other pandemics :
 - There have been several flu pandemics
 - There was an HIV/AIDS pandemic
 - The Bubonic Plague

So what about all the heroes around us?

Please make sure you are doing your bit and thinking of others. Stay safe and well!
